Lead Process Safety Consultant

Salary £60k -£70k Dependent on Experience

Cheshire

Stopford have an exciting opportunity for a Lead Process Safety Consultant to join the team

The Company

Stopford is an international energy and environmental engineering company, our professional services span Consultancy, Technology & Innovation and Project Management. We are an industry leader with a portfolio spanning research and development through to design and commissioning of process technology. With a worldwide clientele in emerging and existing industries. We provide expert consulting to our partners, supporting them in their drive toward a sustainable low carbon economy.

You will be based at our Head Office in Ellesmere Port and also work from our Manchester (Knutsford) office.

This is a fantastic opportunity to join us as the company's Lead Process Safety Consultant helping to further grow Stopford's capabilities in the areas of Safety and Sustainability and to manage and lead a group of experienced multi-disciplinary consultants.

The Benefits

- Competitive Salary
- Pension
- 25 days holiday plus bank holidays
- Private medical insurance
- Employee assistance program
- On-site parking
- Membership fees

The Role

Reporting to the Consultancy Director, Stopford Energy and Environment is looking to recruit a Senior Consultant to help develop the Consultancy Business, supervise and carry out process consultancy duties. These include identifying and developing business opportunities, generation of proposals, projects and consultancy activities, working within agreed time scales and budgets so that the needs of the client are fully met, together with the business needs of the company

Key Responsibilities

- Be capable of acting as Lead Process Safety Consultant to coordinate and control all safety and sustainability aspects of a project.
- Responsible for maintaining and developing process engineering standards for the company.
- Supervision of other process consultants and control of the budget/manhours.
- Be responsible for approving/checking the process consultancy output – i.e. approve reports and process calculations.

About you

- Degree in Chemical Engineering and chartered status
- A minimum of 10 years post-graduate relevant experience
- In depth experience of risk assessments, HAZOP in team leader / chair, QRA, HAZAN, COMAH, Human Factors, DSEAR
- Ability to apply skills into different sectors
- Ability to identify new Consulting opportunities that will utilise Stopford's multi-disciplinary skills in the low carbon economy
- Be able to demonstrate in-depth process engineering knowledge from Concept to Detailed Design
- Experience in managing client relationships in a technical role
- Organisational and administrative skills
- Clear and concise communication in both written and verbal form with excellent people management and interpersonal skills
- Eligible to live and work in the UK
- Full UK/EEC driving licence.

Desirable qualifications

- Process safety qualification (MSc, Diploma or NEBOSH)
- TUV professional qualification

Please note we do not accept applications from agencies, and you must be eligible to live and work in the UK.

To apply, please email your CV to careers@stopford.co.uk and quote job reference **LPC2021**

If we think you have got potential, we'll be in touch within 10 working days.
